We build long-term relationship with our clients and our employee. iCG hires and nurtures the best consulting staff and management team.

Our Technology Practices

Our Methodology and Delivery processes ensure that customer requirements are met and projects delivered on time. Our consultants have an average over ten years of industry and consulting experience that enables them to make our customer more competitive.

Our services are broad based and include business process improvement, analytical services, ERP implementations, roll-outs, E-Business solutions, upgrades, testing, as well as application management, managed DBA service, remote DBA service, SAP implementation, data warehouse management and managed cloud base service.

We provide consultancy, solutions and service in various emerging technologies such as Hyperion EPM, Cloud Computing, BigData Analytics, Application assessment service, Security audit and Performance tuning services, and Training Services.

Our Industry Expertise

Our deep industry expertise allows for us to tailor our services and solutions around the clients needs. iCG is setting compelling standard for delivery & customer satisfaction.

We have attained Oracle’s Gold Partnership. We stay abreast of the latest advances of our partners so that our customers can continually benefit from these. The company leverages on-site and onshore capabilities to deliver results and ensure ROI.

The Philosophy we Follow

- **WE BELIEVE THAT LEADERSHIP, POSITIVE ATTITUDE, PASSION AND ACCOUNTABILITY ARE THE KEYS OF CONSISTENT PERFORMANCES.**
- **NEVER LIE TO GET YOUR WAY, TRY TO BE AS HUMBLE AS POSSIBLE.**
- **APPEARANCE MAY NOT MATTER, BUT SAPIENT DOES.**
